JUL 1920

United States Department of Agriculture,

FEDERAL HORTICULTURAL BOARD.

C. L. MARLATT, *Chairman;* W. A. ORTON; GEO. B. SUDWORTH; W. D. HUNTER; KARL F. KELLERMAN; R. C. ALTHOUSE, *Secretary.*

SERVICE AND REGULATORY ANNOUNCEMENTS

INDEX 1919.

Page.

Aeroplane, use of, locating cotton fields in remote or inaccessible districts in Texas 2
Aeroplane scouting, fatal accident 95
Agriculture, Secretary of, reply to nurserymen and florists protesting against Quarantine No. 37 37
Arkansas, terminal inspection points for mail shipments of plants and plant products 87
Ballast, ships'—
  a possible means of introducing noxious insects 3
  investigation shows not an important source of introducing plant enemies 37
Barberry and Mahonia—
  public hearing, notice of 10
  Quarantine No. 38 58
Barberry, shipment by mail into certain States prohibited 71
Belgium, importation of potatoes prohibited on account of potato wart 121
Berberis. *See* Barberry.
Black stem rust—
  public hearing, notice of 10
  Quarantine No. 38 58
Board personnel 122
Bollworm, pink. *See* Pink bollworm.
Border quarantine service 119
Brown-tail moth—
  intercepted on French nursery stock 23
  revision of quarantine 67
Bulbs—
  instructions relative to inspection and entry 104
  sterilization requirements of earth used for packing 32
  use of sterilized sand, soil, or earth authorized for packing 21
Canada, summary of quarantine on account of European corn borer 121
Compere, George, report on port conditions at New Orleans 18
Compere, Harold, report on use of aeroplane for location of cotton fields 2
Connecticut, instructions to postmasters relative to restrictions on account of gipsy moth and brown-tail moth quarantine 88
Corn borer, European. *See* European corn borer.

Page.
Cotton and cotton seed produced in regulated zones in Texas, instructions relative to disposition 96
Cranberry vines, shipment from New England to northern and western States did not result in spread of gipsy moth 3
Date offshoots, prohibited entry in commercial quantities 122
Diseases imported with plants, examples of 8
Diven, E. L., killed in aeroplane accident 95
Earth, sand, or soil, use of, authorized for packing bulbs, if sterilized 21
Earth, unsterilized, not permitted entry 123
Eelworm disease of cereals—
quarantine proposed, hearing, notice of 84
quarantine found unnecessary 85
European corn borer—
extension of Federal quarantine postponed 97
Massachusetts State quarantine 57
orders supplementing Massachusetts State quarantine 66
plan of work outlined by department 121
proposed quarantine, hearing, notice of 22, 109
quarantine withheld 31
spread in Massachusetts 22
summary of quarantine action taken by various States and Canada 120
Flag smut—
eradication of 86
promulgation of proposed domestic quarantine postponed 66
quarantine proposed (domestic), hearing, notice of 84
Quarantine No. 39 (foreign), notice of 77
Florida—
provision for terminal inspection of plants and plant products at West Palm Beach 20
summary of State quarantine on account of European corn borer 120
"Flower seeds," definition of 105
France, nursery stock infested with gipsy moth and brown-tail moth 23
Gipsy moth—
inspection of cranberry bogs in northern and western States fails to reveal presence of this insect 3
intercepted on French nursery stock 23
revision of quarantine 67
Hearings, quarantine—
barberry and Mahonia, notice of 10
European corn borer, notice of 22, 109
flag smut, take-all, and wheat nematode or eelworm disease, notice of 84
potato wart, notice of 9
Holland—
importation of potatoes prohibited on account of potato wart 121
phytopathological service, changes in 111
Illinois—summary of State quarantine on account of European corn borer 120
Importation and exportation of plants and seeds by the United States Department of Agriculture, regulations governing 107
Insects and plant diseases, foreign, manuals of 7
Insects imported with plants, examples of 8
Insects, Oriental, introduced 7
Inspection and entry of bulbs, supplemental instructions relative to 104

Page.
Inspection and entry of plants under Regulation 3, Quarantine No. 37, instructions relative to 103
Inspection, terminal, mail shipments of plants and plant products 20, 87
Irish cobbler, apparently immune to potato wart 99
Japanese beetle, instructions to postmasters relative to restrictions on mail shipments of green corn 59
Lining-out stock or seedlings of ornamentals not permitted entry 124
Losses caused by introduced pests 8
Mahonia and barberry—
public hearing, notice of 10
Quarantine No. 38 58
Mahonia, shipment by mail into certain States prohibited 71
Mail importations of plants, violations of order prohibiting 19
Maine, instructions to postmasters relative to restrictions on account of gipsy moth and brown-tail moth quarantine 88
Manuals of foreign insects and plant diseases 7
Massachusetts—
instructions to postmasters prohibiting mail shipment of corn and corn plants 34
instructions to postmasters relative to restrictions on account of gipsy moth and brown-tail moth quarantine 88
proposed quarantine on account of European corn borer, notice of 22, 109
spread of European corn borer 22
State quarantine on account of European corn borer 57
summary of State quarantine on account of European corn borer 120
Mexican border quarantine service 119
Moth, brown-tail. *See* Brown-tail moth.
Moth, gipsy. *See* Gipsy moth.
New Hampshire—
instructions to postmasters relative to restrictions on account of gipsy moth and brown-tail moth quarantine 88
proposed quarantine on account of European corn borer, notice of 109
summary of State quarantine on account of European corn borer 120
New Orleans, establishment of port inspection service 18, 32
New Jersey, instructions to postmasters relative to restrictions on mail shipments of green corn 59
New York—
discovery of European corn borer 22
proposed quarantine on account of European corn borer, notice of 22
State quarantine against European corn borer 31
summary of State quarantine on account of European corn borer 120
Nursery stock—
date offshoots prohibited entry in commercial quantities 122
foreign inspection not reliable 35
French, infested with gipsy moth and brown-tail moth 23
new varieties and necessary propagating stock, importation permitted 33
not under quarantine, regulations governing the importation of, by the United States Department of Agriculture 107
Quarantine No. 37, explanatory memorandum 4
shipment in bond to foreign countries 108
under quarantine, regulations governing the importation of, by the United States Department of Agriculture 107

Page.

Nursery stock, plant, and seed quarantine—
Amendment No. 1 (authorizes use of sterilized sand, soil, or earth for packing bulbs) 21
Amendment No. 2 (makes provision for importation, under special permit, of limited quantities of otherwise prohibited stock, for the purpose of keeping the country supplied with new varieties and necessary propagating stock) 33
Amendment No. 3 (makes provision for the importation of otherwise prohibited stock from foreign countries contiguous to the United States) 99
conditions necessitating the quarantine 6
foreign inspection and certification service inadequate 6
introduced oriental insects 7
introduced plant diseases 7
manuals of foreign insects and plant diseases 7
plant pests of oriental countries 7
soil with potted and balled plants a special source of danger 6
explanatory memorandum 4
explanatory press notice 20
"flower seeds" as used in Regulations 2 and 3, definition of 105
inadequacy of special quarantines 9
inspection and entry of bulbs, instructions relative to 104
inspection and entry of plants under Regulation No. 3, instructions relative to 103
losses caused by introduced pests 8
examples of diseases imported with plants 8
examples of insects imported with plants 8
necessity of general quarantine 9
new varieties, explanation of provisions for entry 33
new varieties, supplementary explanation of provisions for entry 105
objections raised in letters of protest 4
propagating stock, explanation of provisions for entry 33
propagating stock, supplementary explanation of provisions for entry 105
reply of Secretary of Agriculture to protesting nurserymen and florists 37
"seeds of hardy perennial plants" as used in Regulations 2 and 3, definition of 105
steps leading to the quarantine 4
seedlings or lining-out stock of ornamentals not permitted entry 124
unsterilized earth not permitted entry 123
Pennsylvania—
Philadelphia, instructions to postmasters relative to restrictions on mail shipments of green corn from certain sections of New Jersey 59
potato wart discovered in Cambria County 98
Personnel of board 122
Plant diseases, introduced 7
Plant introduction gardens, inspection of 82
Plants and seeds, regulations governing importation and exportation by the United States Department of Agriculture 107

Page.

Pink bollworm—
aeroplane scouting 2
commission created under the terms of the Texas pink bollworm act of 1919 49
conference at Houston of Association of Cotton State Entomologists 119
danger from carriage of cotton seed by Mexican laborers 119
fees for fumigation of railway cars, etc., on Mexican border 109, 119
Hearne noncotton zone No. 1 50
Hearne quarantine zone 51
host plants other than cotton, study of 119
inspection work fails to develop infestation 1
investigations in Porto Rico 120
Pecos Valley infestation and clean-up 17, 117
program of inspection work for summer of 1919 65
quarantine zone No. 4 53
quarantine zone No. 5 54
quarantine zone No. 6 54
regulated cotton zones Nos. 2 and 3 30, 52
regulated zone No. 6 A, Barstow, Tex 55
regulated zone No. 6 B, Pecos, Tex 56
reinfestation in Trinity Bay and Pecos Valley districts discovered in October, 1919 117
scouting by aeroplane 2
situation in Mexico 95
research work in the Laguna 66
Laguna station closed 118
situation in Texas 1, 17, 29, 49, 65, 93, 117
Texas law, revision of 1
Port inspection established at New Orleans 18, 32
Postmasters—
instructions to certain New Jersey postmasters and the postmaster at Philadelphia, Pa., relative to restrictions on mail shipments of green corn 59
instructions to Florida postmasters, provision made for terminal inspection of plants and plant products at West Palm Beach 20
instructions to Massachusetts postmasters, prohibition of shipment by mail of corn and corn plants 34
instructions, prohibition of shipment by mail of barberry and Mahonia into certain States 71
instructions, restrictions on mailing of plants and plant products and stone or quarry products on account of gipsy moth and brown-tail moth 88
Potatoes, importation from Holland and Belgium not permitted 121
Potato wart—
disinfection of soil by steam or formaldehyde 123
Irish Cobbler and certain other varieties of potatoes apparently immune 99, 123
public hearing 9
report of conference in Washington 122
results of survey 98

Press notice— Page.
barberry and Mahonia (black stem rust) quarantine 58
barberry and Mahonia quarantine proposed, hearing 11
flag smut and take-all, eradication of 86
foreign inspection of nursery stock unreliable 35
nursery stock, plant and seed quarantine, explanation of 20
potato wart, quarantine proposed, hearing 10
report of conference 122
ships' ballast not an important source of introducing plant enemies 37
Pyrausta nubilalis. See European corn borer.
Quarantine—
barberry and Mahonia (No. 38), notice of 58
flag smut and take-all (No. 39), notice of 77
nursery stock, plant and seed (No. 37)—
Amendment No. 1 (authorizes use of sterilized sand, soil, or earth for packing bulbs) 21
Amendment No. 2 (makes provision for importation, under special permit, of limited quantities of otherwise prohibited stock, for the purpose of keeping the country supplied with new varieties and necessary propagating stock) 33
Amendment No. 3 (makes provision for the importation of otherwise prohibited stock from foreign countries contiguous to the United States) 99
conditions necessitating the quarantine 6
foreign inspection and certification service inadequate 6
introduced oriental insects 7
introduced plant diseases 7
manuals of foreign insects and plant diseases 7
plant pests of oriental countries 7
soil with potted and balled plants a special source of danger 6
explanatory memorandum 4
explanatory press notice 20
"flower seeds" as used in Regulations 2 and 3, definition of 105
inadequacy of special quarantines 9
inspection and entry of bulbs, instructions relative to 104
inspection and entry of plants under Regulation 3, instructions relative to 103
losses caused by introduced pests 8
examples of diseases imported with plants 8
examples of insects imported with plants 8
necessity of general quarantine 9
new varieties, explanation of provisions for entry 33
new varieties, supplementary explanation of provisions for entry 105
objections raised in letters of protest 4
propagating stock, explanation of provisions for entry 33
propagating stock, supplementary explanation of provisions for entry 105
reply of Secretary of Agriculture to protesting nurserymen and florists 37
"seeds of hardy perennial plants" as used in Regulations 2 and 3, definition of 105
steps leading to the quarantine 4
seedlings or lining-out stock of ornamentals not permitted entry 124
unsterilized earth not permitted entry 123

Page.
Railway cars, a possible means of distributing noxious insects 3
Regulations governing the importation of nursery stock by the United States Department of Agriculture 107
Rhode Island, instructions to postmasters relative to restrictions on account of gipsy moth and brown-tail moth quarantine 88
Rice, seed or paddy, importation prohibited from certain countries 78
Rose-4 apparently immune to potato wart 99
Sand, soil, or earth used for packing bulbs, sterilization requirements 32
Sand, soil, or earth, use of authorized for packing bulbs, if sterilized 21
Seedlings, or lining-out stock of ornamentals not permitted entry 124
"Seeds of hardy perennial plants," definition of 105
Secretary of Agriculture, reply to nurserymen and florists protesting against Quarantine No. 37 37
Shearman, Thomas G., report on investigation of criticisms of nursery stock, plant, and seed quarantine 37
Soil, sand, or earth, use of authorized for packing bulbs, if sterilized 21
Soil, sand, or earth used for packing bulbs, sterilization requirements 32
Soil with imported potted and balled plants a source of danger of entry of insect pests 6
Take-all—
eradication of 86
promulgation of proposed domestic quarantine postponed 66
quarantine proposed (domestic), hearing, notice of 84
Quarantine No. 39 (foreign), notice of 77
Terminal inspection, mail shipments of plants and plant products 20, 87
Treasury decision—
flag smut and take-all quarantine, No. 38105 110
flag smut and take-all quarantine, No. 38158 111
importation of plants by mail prohibited, No. 38023 71
nursery stock, plant, and seed quarantine, No. 37867 11
nursery stock, plant, and seed quarantine, amendments Nos. 1 and 2, No. 37970 59
nursery stock, plant, and seed quarantine, amendment No. 3, No. 38116 110
Thurberia plant in Arizona, distribution of 95
Tillisch, William H.—
report on use of aeroplane for location of cotton fields 2
killed in aeroplane accident 95
Unsterilized earth not permitted entry 123
War Department—
cooperation in work against the pink bollworm by loaning aeroplane and furnishing pilot for location of cotton fields 95
cooperation in work against pink bollworm by loaning of camp equipment 17
West Virginia, potato wart discovered in Randolph and Tucker Counties 98
White pine blister rust quarantine, prompt report of violations requested 67
Wisconsin, summary of State quarantine on account of European corn borer 120
